TWO LOCAL BOYS MAKING A DIFFERENCE

Pat Holden and Charles Gibson, owners of a computer repair shop located on Youree Drive in Shreveport, credit their success to great customer service, and a $99 flat fee (excluding the cost for parts) to fix any computer problem.

Holden, a former restaurant and nightclub owner, has over 20 years of customer service experience. Gibson, who specializes in computer forensics, has been in the industry since 1996. Both say their backgrounds have let them create a customer base that has increased through the use of Facebook and word-of-mouth advertising. $99 price tag for services hasn't hurt business either.

"People have been getting ripped off for too long," Holden said. "We go beyond just fixing a problem. Every system that come here gets a full tune-up. It's a standard service we never deviate from."

Fairfield Grocery & Market Café

is not a fast food joint but a full-service locally owned place. Corporate doesn't make the rules here.

We cook our food to order because it tastes better that way.

We will gladly make separate checks.

We not so gladly reserve the right to refuse service at any time. We can't take the chance of contaminating Fairfield Grocery with exhilarated, nasty moods. Yuk.

Most importantly, we love your business and hope you love us enough to come back!
